PARCEL A

- EPA will be attending the CAC meeting tonight (John Chesnutt and Yolanda Sanchez).
- It's our understanding that the indoor dust wipe testing has begun and will continue for the next few weeks.
- Can we discuss clarifying facts regarding future excavation at Parcel A?

FIVE YEAR REVIEW/ PARCEL G

- We continue to dialogue with the Navy on PRGs. Soil PRGs do not change much. The main issue is that residential building PRGs change significantly. It would be unfortunate for EPA and the Navy to spend more time discussing building PRGs if these buildings will ultimately be demolished, but so far, we've heard that the only scenario we should consider for these buildings is the land use specified in the RODs. The future building use scenario is key to moving forward on this issue. It is crucial for the City to participate with other agencies in crafting a path forward.
- In addition, the DTSC statewide template for CRUPs includes a requirement that any edible plants must be grown in raised beds with impenetrable bottoms for all plants, not just trees. We consulted with two EPA toxicologists. They reviewed more current relevant academic literature and concluded that the DTSC template language should apply throughout the Site. Otherwise the current soil ROD RGs would no longer be considered protective within the NCP risk range. We will work with all parties to determine the most expedient way to incorporate this into the relevant documentation.
- Once we resolve the PRG issue, we are looking at ways to get in the field soon, while ensuring that the approval process for both documents is transparent.

COMMUNICATIONS/MEETINGS

- We briefed Senator Harris' San Francisco staff (Adam Mehis, Obai Rambo, and Matthew Bedinger) on Hunters Point two weeks ago.
- Enrique Manzanilla met with Steve Castleman two weeks ago.
- Angeles Herrera met with Dan Hirsch two weeks ago. Hirsch raised the vegetable growing concern that has come up in the past.
- Region 9 Administrator Mike Stoker meets with Nancy Pelosi tomorrow in Washington, DC to discuss Hunters Point.
- Does the City have any communications/meetings updates?

MAYOR/SUPERVISOR

- Are there any updates on the independent UC Berkley/UCSF panel to review CDPH's work?
- Are there any updates from Mayor Breed or Supervisor Walton?

NEXT MEETING

- March 4, 2019.
